

Economic plan

This plan identifies the areas prioritised for economic modelling. The final analysis may differ from those described below. The rationale for any differences will be explained in the guideline.

1 Guideline

Antenatal care

2 List of modelling questions

| Review questions by scope area | Is fetal movement monitoring from 28 weeks effective? |
|--|---|
| Population | All pregnant women |
| Interventions and comparators considered for inclusion | <i>Intervention:</i> Formal fetal movement package <i>Comparator:</i> No formal fetal movement package |
| Perspective | UK NHS + PSS |
| Outcomes | Cost, QALYs, Clinical Outcomes |
| Type of analysis | Cost Utility |
| Issues to note | |

| Review questions by scope area | What interventions are effective in treating pelvic girdle pain during pregnancy? |
|--|---|
| Population | All pregnant women that experience pelvic girdle pain |
| Interventions and comparators considered for inclusion | <i>Interventions:</i> Lumbopelvic belt support Physiotherapy-delivered advice (e.g. exercise-related, use of support belts) <i>Comparator:</i> Current practice |
| Perspective | UK NHS + PSS |
| Outcomes | Cost, QALYs, Clinical Outcomes |
| Type of analysis | Cost Utility |
| Issues to note | |
