

Economic plan

This plan identifies the areas prioritised for economic modelling. The final analysis may differ from those described below. The rationale for any differences will be explained in the guideline.

1 Guideline

Pelvic floor dysfunction: prevention and non-surgical management

2 List of modelling questions

Review questions by scope area	What is the effectiveness of physical devices (including support garments, pessaries and dilators) for improving symptoms of pelvic floor dysfunction?
Population	Women with pelvic floor dysfunction
Interventions and comparators considered for inclusion	<ul style="list-style-type: none"> • 75NC007 intravaginal device • No treatment
Perspective	NHS and PSS
Outcomes	Urinary episode continence frequency, QALYs
Type of analysis	CUA
Modelling software	Excel
Issues to note	
Review questions by scope area	What is the effectiveness of pelvic floor muscle training for preventing pelvic floor dysfunction?
Population	Pregnant women in their first pregnancy and without symptoms of pelvic floor dysfunction
Interventions and comparators considered for inclusion	<ul style="list-style-type: none"> • Pelvic floor muscle training • No treatment
Perspective	NHS and PSS
Outcomes	Urinary incontinence, QALYs
Type of analysis	CUA
Modelling software	Excel
Issues to note
