1. Welcome and objectives for the meeting

The Chair welcomed the committee members and attendees to the 9th meeting on Pelvic floor dysfunction: prevention and non-surgical management.

The Chair informed the committee that apologies had been received as noted above.

The Chair outlined the objectives of the meeting, which included reviewing evidence for a number of reviews.

2. Confirmation of matter under discussion, and declarations of interest

The Chair confirmed that, for the purpose of managing conflicts of interest, the matters under discussion were pelvic floor dysfunction.

The Chair asked everyone to verbally declare any interests that have risen since the last meeting. One new interest was declared

Name	Role with NICE	Type of interest	Description of interest	Relevant dates			Comments
				Interest arose	Interest declared	Interest ceased	
Doreen McClurg	Committee Member	Direct non-financial (personal and professional)	A co-applicant in a publication that might be relevant to this review but has not been included as yet Hagen S, Elders A..... McClurg D. Effectiveness of pelvic	Published Oct 2020	16/11/2020	Ongoing	Declare and participate

			<p>floor muscle training with and without electromyographic biofeedback for urinary incontinence in women: multicenter randomized controlled trial BMJ 2020;3719 doi 10.1136/bmj.m3719</p>

The chair and a senior member of the developer’s team noted that the interest declared did not prevent the attendee from fully participating in the meeting.

3. Minutes of last meeting

The chair asked the committee if it wanted any changes made to the minutes of the last meeting. The committee agreed that the minutes were a true and accurate account of the meeting.

The chair confirmed that all matters arising had been completed or were in hand.

4. Morning presentations

Nathan Bromham, NGA Senior Systematic Reviewer, presented the evidence for review question 8.1 - What is the effectiveness of pelvic floor muscle training (including Kegel exercises, biofeedback, weighted vaginal cones, and electrical stimulation) for improving symptoms of pelvic floor dysfunction? The chair and topic group lead Lucia Berry guided the committee into discussion of the evidence and drafted recommendations.

5. Afternoon presentations

Jo Varley-Campbell, NGA Systematic Reviewer, presented the evidence for review question 13.1 - What competencies should be represented in a community-based multidisciplinary team for the management of symptoms associated with pelvic floor dysfunction? The Chair and Topic group lead Catherine Heffernan guided the committee into discussion of the evidence and drafted recommendations.

6. Any other business

Actions arising from the meeting were summarised and no other business was raised.

Date of next meeting: 15th December 2020 (afternoon)

Location of next meeting: Via Zoom
