### 1. Welcome and objectives for the meeting

The Chair welcomed the committee members and attendees to the 23<sup>rd</sup> meeting of the multiple obstetric guidelines update.

The Chair informed the committee that apologies had been received and noted above.

The Chair outlined the objectives of the meeting, which included reviewing guideline protocols, evidence and editorial changes to existing recommendations.

### 2. Confirmation of matter under discussion, and declarations of interest

The Chair confirmed that, for the purpose of managing conflicts of interest, the matters under discussion were multiple obstetric topics including Intrapartum care (IPC).

The Chair asked everyone to verbally declare any interests that have risen since the last meeting. New interests were declared and noted below.

Name	Role	Type of interest	Description of interest	Relevant dates			Comments
				Interest arose	Interest declared	Interest ceased	
Maggie Blott	Topic Advisor	Direct, personal and professional	Appointed as Policy and Stakeholder Liaison Consultant for the ABC Collaboration programme at the Royal College of Obstetricians and Gynaecologists.	01/01/2022	09/11/2021	On going	Declare and participate Agreed by: GL November 2021 Rationale: Specific to guideline and is relevant to the CTG updates, but considered to be preferable if NICE and RCOG can deliver complementary guidance on fetal monitoring and so useful to have liaison between the 2 groups.
Aung Soe	Committee	Direct, personal	Author on the paper:	21/08/2020	07/11/2021	21/08/2020	Declare and participate

	Member	and professional	Neonatal admission and mortality in babies born in UK alongside midwifery units: a national population-based case-control study using the UK Midwifery Study System (UKMidSS). Rowe R, Soe A, Knight M, et al. Arch Dis Child Fetal Neonatal Ed 2020; 0:F1–F10.				Agreed by: GL November 2021  Rationale: Specific to guideline but the research is carried out and published by the UKMidSS group so membership of the steering group is not likely to lead to a conflict of interest when making recommendations on these topics.

The Chair and Guideline Lead noted that the interests declared did not prevent the attendees from fully participating in the meeting.

### 3. Minutes of last meeting

The Chair asked the committee to confirm the minutes of the last meeting, and the committee confirmed that no changes were required.

### 4. Morning presentations

The Chair introduced Eva Gonzalez-Viana, Senior Systematic Reviewer, who presented the review protocol for IPC Q8.1: What are the benefits and risks associated with active management compared to physiological management in the third stage of labour?

The Chair introduced Josie O’Heney, NGA Clinical Fellow, who presented the editorial changes on the use of CTG.

### 5. Afternoon presentations

The Chair introduced Agnesa Mehmeti, Systematic Reviewer and Paul Jacklin, Senior Health Economist, who presented the clinical evidence review for IPC Q1.1: What are the benefits and risks of different places of birth for women at different BMI thresholds?, and discussed the potential for health economic analysis.

The chair introduced Claire Maynard, Systematic Reviewer, who presented the clinical evidence review for IPC Q8.2: Is intravenous administration of oxytocin more effective than intramuscular administration in the active management of the third stage of labour?

### 6. Questions and discussions

The committee revised and signed off the protocol for IPC Q8.1

The committee discussed and reviewed the proposed editorial changes to the CTG recommendations, agreed to some and made revisions to others.

The committee discussed the evidence for IPC Q1.1 and drafted recommendations.

The committee discussed the evidence for IPC Q8.2 and drafted recommendations.
