The Chair and a senior member of the Developer's team noted that the interests declared did not prevent the attendees from fully participating in the meeting.

3. Minutes of previous meeting

One minor amendment was requested to the attendee list but the minutes of the previous meeting were otherwise accepted as a true and accurate record.

4. Review Question 1.2 Which pharmacological therapies are most clinically and cost effective for the management of type 2 diabetes when current treatment has not given adequate response?

The chair introduced Linyun Fou, Sarah Matthews and Nancy Pursey, Technical Analysts, who provided the committee with a refresher of the clinical evidence presented at the previous meeting in support of Review Question 1.2 for Heart failure and chronic kidney disease outcomes. The committee discussed the evidence presented to it but decided not to draft any recommendations at this stage. The

committee also discussed health inequalities considerations raised.

5. Review Question 1.1 For different population subgroups, which individual and/or combinations of pharmacological therapies are most clinically and cost effective as initial treatment for the management of type 2 diabetes?

The Chair welcome Beatrice Downing and Hugo Pedder from NICE's Guidelines Technical Support Unit at University of Bristol, who presented the committee with further preliminary outputs from the Network Meta-Analyses being produced in support of Review Question 1.1. The committee discussed the evidence presented to them though decided not to draft any recommendations at this stage. The committee also discussed health inequalities considerations raised.

6. Review Question 1.2 Which pharmacological therapies are most clinically and cost effective for the management of type 2 diabetes when current treatment has not given adequate response?
