## NICE guidelines

### Equality impact assessment

#### Myeloma: diagnosis and management

The impact on equality has been assessed during guidance development according to the principles of the NICE equality policy.

#### **5.0 After Guidance Executive amendments – if applicable (To be completed by appropriate NICE staff member after Guidance Executive)**

5.1 Outline amendments agreed by Guidance Executive below, if applicable:

GE requested that the supportive text included about the Technology appraisals was amended to reflect NICE's position on Myeloma rather than identifying individual work programmes.

At GE the decision was taken to incorporate all of the technology appraisals in the guideline rather than incorporating some and cross referring to others.
