

## Expert testimony to inform NICE guideline development

### Section A: Developer to complete

<b>Name:</b>	Stephen Butler and Peter Fonagy
<b>Role:</b>	[Academic]
<b>Institution/Organisation (where applicable):</b>	UCL Dept of Clinical, Educational and Health Psychology UCL
<b>Contact information:</b>	
<b>Guideline title:</b>	Harmful Sexual Behaviour
<b>Guideline Committee:</b>	PHAC F
<b>Subject of expert testimony:</b>	MST-PSB
<b>Evidence gaps or uncertainties:</b>	[Research questions or evidence uncertainties that the testimony should address are summarised below]
How will the investigators evaluate the effectiveness of MST for problem sexual behaviour?	

### Section B: Expert to complete

<b>Summary testimony:</b>	[Please use the space below to summarise your testimony in 250–1000 words. Continue over page if necessary ]
<p>We describe a RCT of MST for problem sexual behaviour (MST-PSB) reporting on the characteristics of the sample and initial feedback from parents, young people and referring agencies. They describe their experiences of MST-PSB and of participating in a trial of this treatment as well as describing the service context of MST-PSB.</p>	
<b>References to other work or publications to support your testimony' (if applicable):</b>	

Expert testimony papers are posted on the NICE website with other sources of evidence when the draft guideline is published. Any content that is academic in confidence should be highlighted and will be removed before publication if the status remains at this point in time.
