**1. Welcome and objectives for the meeting**

The Chair welcomed the Committee members and attendees to the eighth guideline committee meeting on Cystic Fibrosis. The Committee members and attendees introduced themselves.

The Chair informed the Committee that apologies had been received and these are noted above.

The Chair outlined the objectives of the meeting, which included: the drafting of the protocol for clinical manifestations of CF, the presentation of the evidence review and health economics for chronic antimicrobial treatment for *P. aeruginosa*, the evidence review for immunomodulatory agents and mucolytic treatment.

**2. Declarations of interest**

The Chair confirmed that, for the purpose of managing conflicts of interest, the matter under discussion was the diagnosis and management of Cystic Fibrosis.

The Chair asked everyone to verbally declare any interests that have arisen since the last meeting.

The Chair and a senior member of the Developer's team noted that the interests declared did not prevent the attendees from fully participating in the meeting.

### 3. Minutes of last meeting

The Chair asked the Committee whether any changes were required to the minutes of the last meeting. The Committee agreed that the minutes were a true and accurate account of the meeting.

### 4. Presentations

The Chair introduced Hugo Pedder, Statistician and GM, Health Economist, who gave a presentation on the evidence reviewed for the topic of Immunomodulatory agents (NMA outcome results and non-NMA pairwise). The Chair then led the committee through the process of drafting recommendations and LETRs for this topic.

The Chair introduced Gemma Villanueva, Senior Research Fellow, and Gemma Merceniuk, Health Economist, who gave a presentation on the evidence review for the topic of mucolytic treatment. The Chair then led the committee through the process of drafting recommendations and LETRs for this topic.

Gemma Villanueva then gave a presentation on the evidence review for the topic of chronic antimicrobial treatment to suppress *P.aruginosa* (non-NMA outcome results).

The Committee thanked everyone for their presentations and contribution to the development of the guideline.
