Equality impact assessment – Guidance development

STA Selpercatinib for previously treated RET fusionpositive advanced non-small-cell lung cancer (MA review of TA760) [ID6293]

The impact on equality has been assessed during this appraisal according to the principles of the NICE equality scheme.

Final draft guidance

1.	Have the potential equality issues identified during the scoping
	process been addressed by the committee, and, if so, how?

No potential equality issues raised during scoping.

2. Have any other potential equality issues been raised in the submissions, expert statements or academic report, and, if so, how has the committee addressed these?

No

3. Have any other potential equality issues been identified by the committee, and, if so, how has the committee addressed these?

No

4. Do the recommendations make it more difficult in practice for a specific group to access the technology compared with other groups?

Technology appraisals: Guidance development

Equality impact assessment for the single technology appraisal of Selpercatinib for previously treated RET fusion-positive advanced non-small-cell lung cancer (MA review of TA760) [ID6293] 1 of 2 Issue date: February 2025

If so, what are the barriers to,	or difficulties with,	access for the
specific group?		

No

5. Is there potential for the preliminary recommendations to have an adverse impact on people with disabilities because of something that is a consequence of the disability?

No

6. Are there any recommendations or explanations that the committee could make to remove or alleviate barriers to, or difficulties with, access identified in questions 4 or 5, or otherwise fulfil NICE's obligations to promote equality?

No

7. Have the committee's considerations of equality issues been described in the final draft guidance, and, if so, where?

N/A
