Equality impact assessment – Guidance development

STA Capivasertib with fulvestrant for treating hormone receptor-positive HER2-negative advanced breast cancer after endocrine treatment ID6370

The impact on equality has been assessed during this appraisal according to the principles of the NICE equality scheme.

Final draft guidance

1.	Have any additional potential equality issues been raised during the consultation, and, if so, how has the committee addressed these?
No equality issues identified	

2.	If the recommendations have changed after consultation, are there any recommendations that make it more difficult in practice for a specific group to access the technology compared with other groups? If so, what are the barriers to, or difficulties with, access for the specific group?
Not applicable	

3.	If the recommendations have changed after consultation, is there potential for the recommendations to have an adverse impact on people with disabilities because of something that is a consequence of the disability?
No	

4. If the recommendations have changed after consultation, are there any recommendations or explanations that the committee could make to remove or alleviate barriers to, or difficulties with, access identified in questions 2 and 3, or otherwise fulfil NICE's obligations to promote equality?

Not applicable

5. Have the committee's considerations of equality issues been described in the final draft guidance, and, if so, where?

Not applicable
