Subject: Health Technology Appraisal -Stapled Haemorrhoidectomy for the treatment of haemorrhoids

Thank you for sending me the above draft appraisal for comment on behalf of the ACPGBI. I confirm that in my opinion

- i) all the relevant evidence has been considered
- ii) the summaries of clinical and cost effectiveness are reasonable and appropriate, and
- iii) the recommendations are sound and constitute a suitable basis for guidance to the NHS.

Richard Novell MChir FRCS
Consultant Surgeon
On behalf of the Association of Coloproctology of Great Britain & Ireland
