Subject: RE: healthcare professionals statement - Lenalidomide for multiple myeloma in people who have received at least one prior therapy RCN

Importance: High

Dear Natalie

Nurses working in this area of health have considered the request to submit professional statement regarding the use of Lenalidomide for the treatment of multiple myeloma in people who have received at least one prior therapy.

There is no additional information to submit at this stage of the technology appraisal on behalf of the Royal College of Nursing.

On behalf of the RCN, we look forward to contributing in the next stage of the appraisal.

Thank you for the invitation. Please acknowledge receipt.

Regards
