

Romiplostim for the treatment of chronic immune or idiopathic thrombocytopenic purpura

<http://niceintranet/NICEAndNicePeople/CentresDirectorates/centrehealthtechnology.cfm>

Dear Consultees and Commentators,

The Appraisal Committee met to discuss this appraisal on 1st April 2009.

At that time the manufacturer of the drug had informed us that the date on which this drug will be launched in the UK had not been finalised and consequently the final price had not been formally announced. We therefore could not release the decision agreed by the Committee and the evidence documentation related to the appraisal at that time.

The price has now been announced and the appraisal can recommence in line with the normal STA process.

We will be sending you the decision agreed by the Committee on 1st April during the week commencing 26th October and will be posting it on the Institute's website a week later.

If you have any questions relating to this appraisal please do not hesitate to contact me.

Kind regards

Jeremy

Jeremy Powell
