Please provide, for the total population, OS, TTP, ORR and CBR outcome data for patients who received previous endocrine therapy with $\mathrm{AO}(\mathrm{s})$ only, $\mathrm{AI}(\mathrm{s})$ only and both an AO and AI (i.e. they received these treatments for either adjuvant therapy or advanced disease)

Please enter the data for $\boldsymbol{\square}$ in each relevant cell

|  | fulvestrant 500 mg ( $\mathrm{N}=362$ ) | $\begin{array}{\|l} \hline \text { fulvestrant } \\ 250 \mathrm{mg} \\ (\mathrm{~N}=374) \end{array}$ | Comparison between groups (fulvestrant $500 \mathrm{mg} /$ fulvestrant $\mathbf{2 5 0 ~ m g}$ ) |  |  |
