**Subject:** FW: NICE MTA - mCRC review - Assessment Report Consultation - RCN R

## **Multiple Technology Appraisal (MTA)**

### **Cetuximab, bevacizumab and panitumumab Monotherapy for the treatment of metastatic colorectal cancer that has progressed after first line chemotherapy (review of technology appraisal 150 and part-review of technology appraisal 118)**

#### **Assessment Report**

Dear Jeremy

Nurses who care for and treat people with colorectal cancer were invited to review the Assessment Report of the above health technology appraisal. There are no comments to make on this document at this stage on behalf of the Royal College of Nursing (RCN).

The RCN will participate in the next stage of this appraisal.

Thank you for the invitation to review this document. Please acknowledge receipt.

Regards
