Equality impact assessment – Scoping

STA: Aripiprazole for the treatment and prevention of acute manic and mixed episodes in bipolar disorder in children and adolescents

The impact on equality has been assessed during this appraisal according to the principles of the NICE Equality scheme.

1. Have any potential equality issues been identified during the scoping process (draft scope consultation and scoping workshop discussion), and, if so, what are they?

No potential equality issues have been identified during the scoping workshop discussion or during the two draft scope consultations.

2. What is the preliminary view as to what extent these potential equality issues need addressing by the Committee?

Not applicable.

3. Has any change to the draft scope been agreed to highlight potential equality issues?
--

No changes to the scope are required.

4. Have any additional stakeholders related to potential equality issues been identified during the scoping process, and, if so, have changes to the matrix been made?
--

No
