## No significant resource impact is anticipated

We do not expect this guidance to have a significant impact on resources; that is, the resource impact of implementing the recommendations in England will be less than £5 million per year in England (or £9,000 per 100,000 population).

This is because the population size is small.

Cannabidiol has a discount to the list price that is commercial in confidence. For enquiries about the discount contact: [RHolland@gwpharm.com](mailto:RHolland@gwpharm.com) or [gwyatt@gwpharm.com](mailto:gwyatt@gwpharm.com).

The list price of cannabidiol has been agreed with the Department of Health and Social Care but is considered confidential by the company until January 2020.

This technology is commissioned by NHS England. Providers are NHS hospital trusts.
