

# Ozanimod for treating relapsing–remitting multiple sclerosis

Information for the public

Published: 9 June 2021

[www.nice.org.uk](http://www.nice.org.uk)

Ozanimod (Zeposia) is not normally available on the NHS for treating relapsing–remitting multiple sclerosis in adults with active disease (defined by clinical signs and symptoms, or lesions found by imaging).

Your doctor should talk with you about other treatment options. If you are already having it, you should be able to continue until you and your doctor decide when best to stop.

## Information and support

The [NHS website](https://www.nhs.uk) may be a good place to find out more.

These organisations can give you advice and support:

- [Multiple Sclerosis Society](https://www.multiple-sclerosis-society.org.uk), 0808 800 8000
- [Multiple Sclerosis Trust](https://www.multiple-sclerosis-trust.org.uk), 0800 032 3839

You can also get support from your local [Healthwatch](#).
