Equality impact assessment – Scoping

**STA Lenalidomide for treating relapsed or refractory
mantle cell lymphoma**

The impact on equality has been assessed during this appraisal according to the principles of the NICE equality scheme.

1. Have any potential equality issues been identified during the scoping process (draft scope consultation and scoping workshop discussion), and, if so, what are they?

No equalities issues were raised during the consultation or scoping workshop

2. What is the preliminary view as to what extent these potential equality issues need addressing by the Committee?

NA

3. Has any change to the draft scope been agreed to highlight potential equality issues?

No

4. Have any additional stakeholders related to potential equality issues been identified during the scoping process, and, if so, have changes to the matrix been made?

NA
