Dear **XXXX**,

Re: Proposal to defer the review of NICE Technology Appraisal Guidance No 78

We are writing to you regarding your letter dated 27 September 2007 proposing a deferral of the review of Technology Appraisal 78. Though we are aware of new evidence that has been published since the original Technology Appraisal, where significant, they have been incorporated in the recently published clinical guideline on Heavy Menstrual Bleeding. Hence, we agree with the recommendation.

Yours sincerely
