### **Equality impact assessment – Guidance development**

## STA Tepotinib for treating advanced non-small-cell lung cancer with MET gene alterations [ID3761]

The impact on equality has been assessed during this appraisal according to the

	les of the NICE equality scheme.			
Consultation				
1.	Have the potential equality issues identified during the scoping process been addressed by the committee, and, if so, how?			
No e	equality issues were identified during the scoping process.			
2.	Have any other potential equality issues been raised in the submissions, expert statements or academic report, and, if so, how has the committee addressed these?			
No.				
3.	Have any other potential equality issues been identified by the committee, and, if so, how has the committee addressed these?			
No.				
4.	Do the preliminary recommendations make it more difficult in practice for a specific group to access the technology compared with other			

groups? If so, what are the barriers to, or difficulties with, access for the specific group?

Technology appraisals: Guidance development

Equality impact assessment for the single technology appraisal of tepotinib for treating advanced nonsmall-cell lung cancer with MET gene alterations [ID3761]

Issue date: May 2022

No.		
5.	Is there potential for the preliminary recommendations to have an adverse impact on people with disabilities because of something that is a consequence of the disability?	
No.		
6.	Are there any recommendations or explanations that the committee could make to remove or alleviate barriers to, or difficulties with, access identified in questions 4 or 5, or otherwise fulfil NICE's obligations to promote equality?	
N/A		
7.	Have the committee's considerations of equality issues been described in the appraisal consultation document, and, if so, where?	
N/A		
Approved by Associate Director (name):Linda Landells  Date: 25 January 2022
