Indicator

The contractor establishes and maintains a register of patients with coronary heart disease.

Indicator type

General practice indicator suitable for use in the Quality and Outcomes Framework.

This document does not represent formal NICE guidance. For a full list of NICE indicators, see our [menu of indicators](#).

To find out how to use indicators and how we develop them, see our [NICE indicator process guide](#).

Rationale

This indicator establishes a register of people with coronary heart disease with the aim of

facilitating subsequent intervention and support. It should include all those with a history of angina, coronary artery revascularisation or myocardial infarction.
