

## Appendix G: Excluded Studies

### Non pharmacological risk factors

<i>Study</i>	<i>Reason for exclusion</i>
Agnoletti 2005	Study protocol only
Blondell 2004	Delirium associated with drug/alcohol withdrawal
Buis 2002	Not enough relevant data presented
Cacchione 2003	Only univariate analysis presented
Clark 1995	Only univariate analysis presented
Clayer 2000	Fewer than 20 patients developed delirium
Del Rosario	Only univariate analysis presented
Duggleby 1994	Sample size too small
Eriksson 2002	Fewer than 20 patients developed delirium
Faezah 2008	Only univariate analysis presented
Fisher 1995	Comparison not of interest
Hamann 2005	Fewer than 20 patients developed delirium
Hashimoto 1997	Comparison not of interest
Joosten 2006	Comparison not of interest
Kaneko 1997	Fewer than 20 patients developed delirium
Kawaguchi 2006	Fewer than 20 patients developed delirium
Koebrugge 2009	Fewer than 20 patients developed delirium

## Appendix G: Excluded Studies

### Non pharmacological risk factors

<i>Study</i>	<i>Reason for exclusion</i>
Koponen 1989	Comparison not of interest
Lawlor 2000	People receiving end of life care
Lerner 1997	Comparison not of interest
Ljubisavljevic 2003	Not enough relevant data presented
Lynch 1998	Comparison not of interest
Milstein 2000	Fewer than 20 patients developed delirium
Nakase-Thompson 2004	Comparison not of interest
Naughton 1995	Fewer than 20 patients developed delirium
Nishikawa 2004	---
Rahkonen 2000	Comparison not of interest
Ritchie 1996	Comparison not of interest
Robinson 2008	Comparison not of interest
Rudolph 2008	Only univariate analysis presented
Serrano-Duenas 2005	Comparison not of interest
Tagarakis 2007	Comparison not of interest
Wakefield 1996	Fewer than 20 patients developed delirium
