

The forest plots for combined psychological-pharmacological treatments are referenced 'Combo xx.xx' in the evidence profiles (appendix 18) and summary evidence profiles in the chapters.

Combo 01.01 aggression measures	2
Combo 02.01 anger measures	2
Combo 03.01 anxiety measures	2
Combo 04.01 depression measures (self-rated)	3
Combo 04.02 depression measures (clinician-rated)	3
Combo 05.01 global functioning measures.....	3
Combo 06.01 quality of life measures	4
Combo 07.01 self-harm/suicidality	4
Combo 08.01 service use measures.....	5
Combo 09.01 antidepressants: leaving treatment early for any reason.....	5
Combo 09.02 antipsychotics: leaving treatment early for any reason	5
Combo 10.01 antidepressants: leaving treatment early due to side-effects	6
Combo 10.02 antipsychotics: leaving treatment early due to side-effects.....	6
Combo 11.01 antidepressants: number of participants reporting side-effects	6
Combo 11.02 antipsychotics: number of participants reporting side-effects.....	7
Combo 12.01 antipsychotics: weight change.....	7
Combo 13.01 fluoxetine + IPT versus fluoxetine: efficacy measures	7
Combo 13.02 fluoxetine + IPT versus fluoxetine: quality of life measures	8
Combo 13.03 fluoxetine + IPT versus fluoxetine: acceptability and tolerability measures	8
Combo 14.01 fluoxetine + IPT versus fluoxetine + CT: efficacy measures.....	9
Combo 14.02 fluoxetine + IPT versus fluoxetine + CT: quality of life measures	9
Combo 14.03 fluoxetine + IPT versus fluoxetine + CT: acceptability and tolerability	10
Combo 15.01 fluoxetine + DBT versus placebo: efficacy measures	10
Combo 15.02 fluoxetine + DBT versus placebo: quality of life measures	11
Combo 15.03 fluoxetine + DBT versus placebo: acceptability and tolerability	11
Combo 16.01 olanzapine + DBT versus placebo: efficacy measures.....	12
Combo 16.02 olanzapine + DBT versus placebo: service use measures	12
Combo 16.03 olanzapine + DBT versus placebo: acceptability and tolerability measures	12
Combo 16.04 olanzapine + DBT versus placebo: side-effects	14

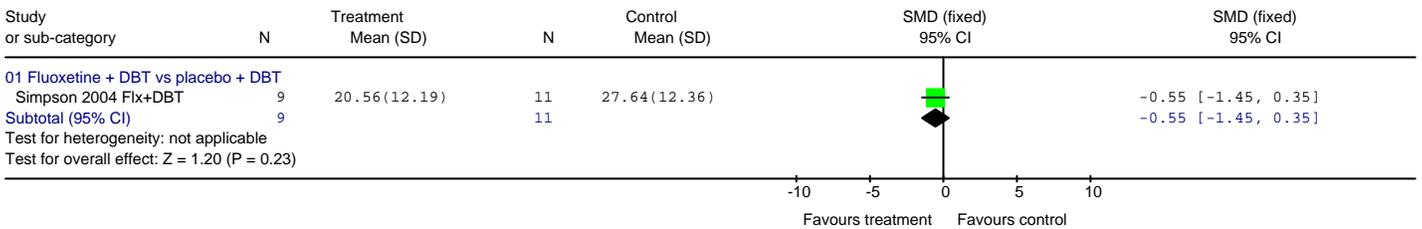

Combo 01.01 aggression measures

Review: BPD combination pharmacology-psychology
 Comparison: 01 Aggression measures
 Outcome: 01 Clinician-rated measures

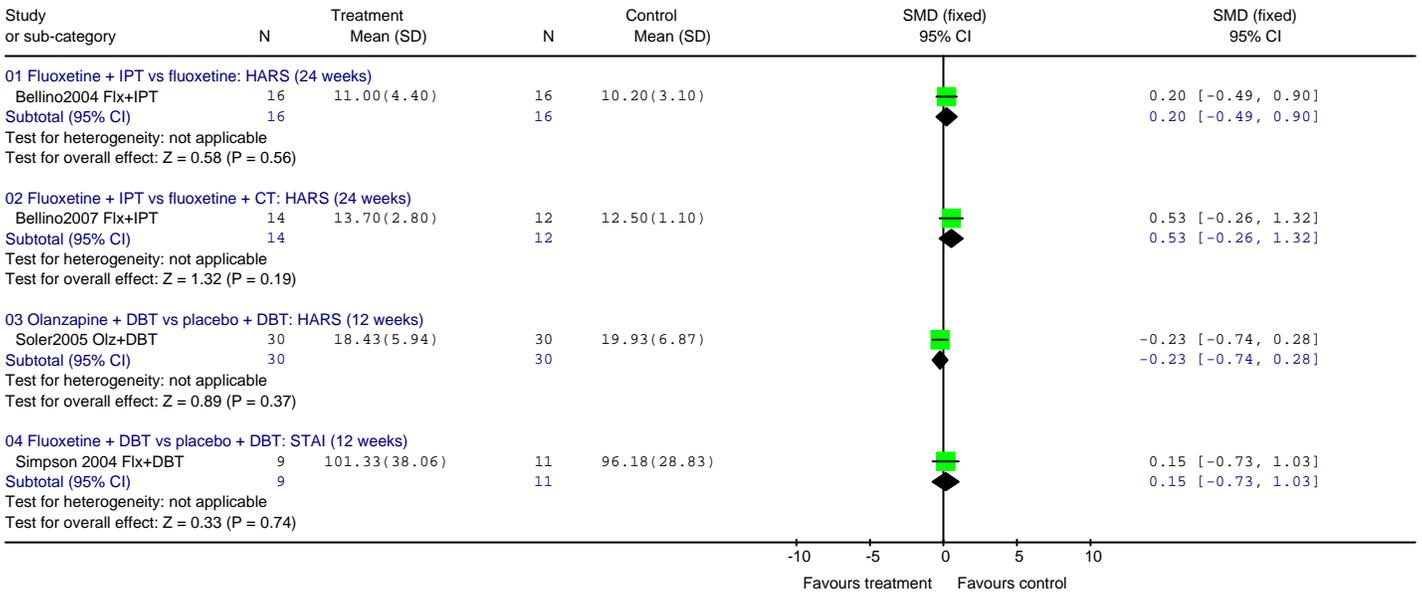

Combo 02.01 anger measures

Review: BPD combination pharmacology-psychology
 Comparison: 02 Anger measures
 Outcome: 01 STAXI - total (12 weeks)

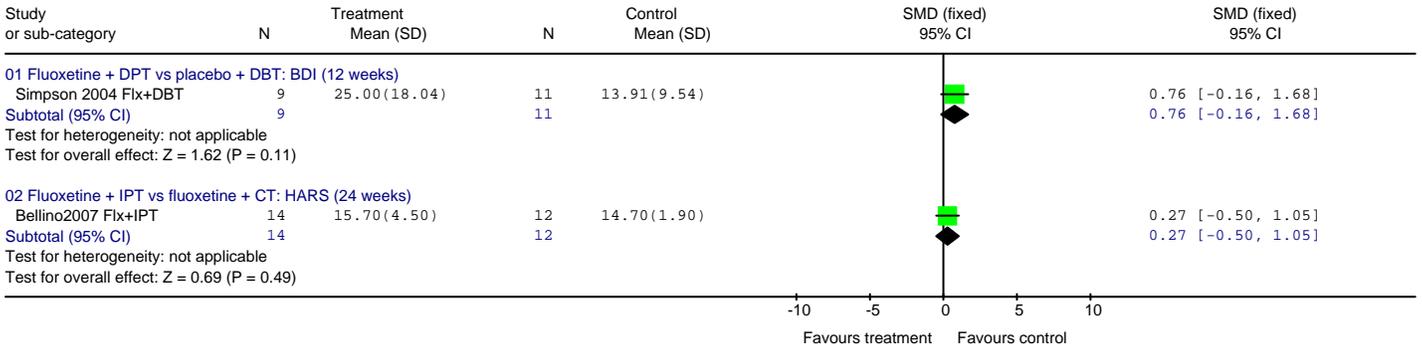

Combo 03.01 anxiety measures

Review: BPD combination pharmacology-psychology
 Comparison: 03 Anxiety measures
 Outcome: 01 Clinician-rated measures (endpoint)

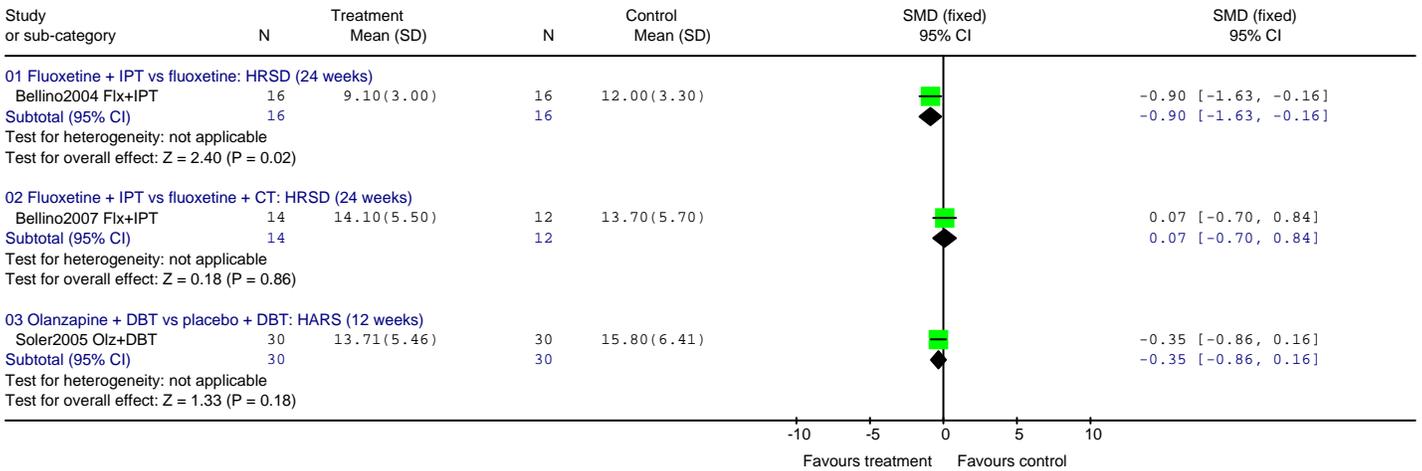

Combo 04.01 depression measures (self-rated)

Review: BPD combination pharmacology-psychology
 Comparison: 04 Depression measures
 Outcome: 01 Self-rated measures (endpoint): combination treatments

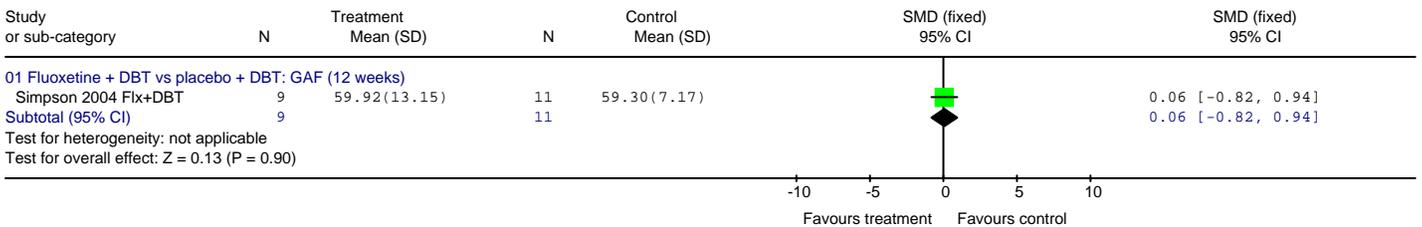

Combo 04.02 depression measures (clinician-rated)

Review: BPD combination pharmacology-psychology
 Comparison: 04 Depression measures
 Outcome: 02 Clinician-rated measures (endpoint): combination treatments

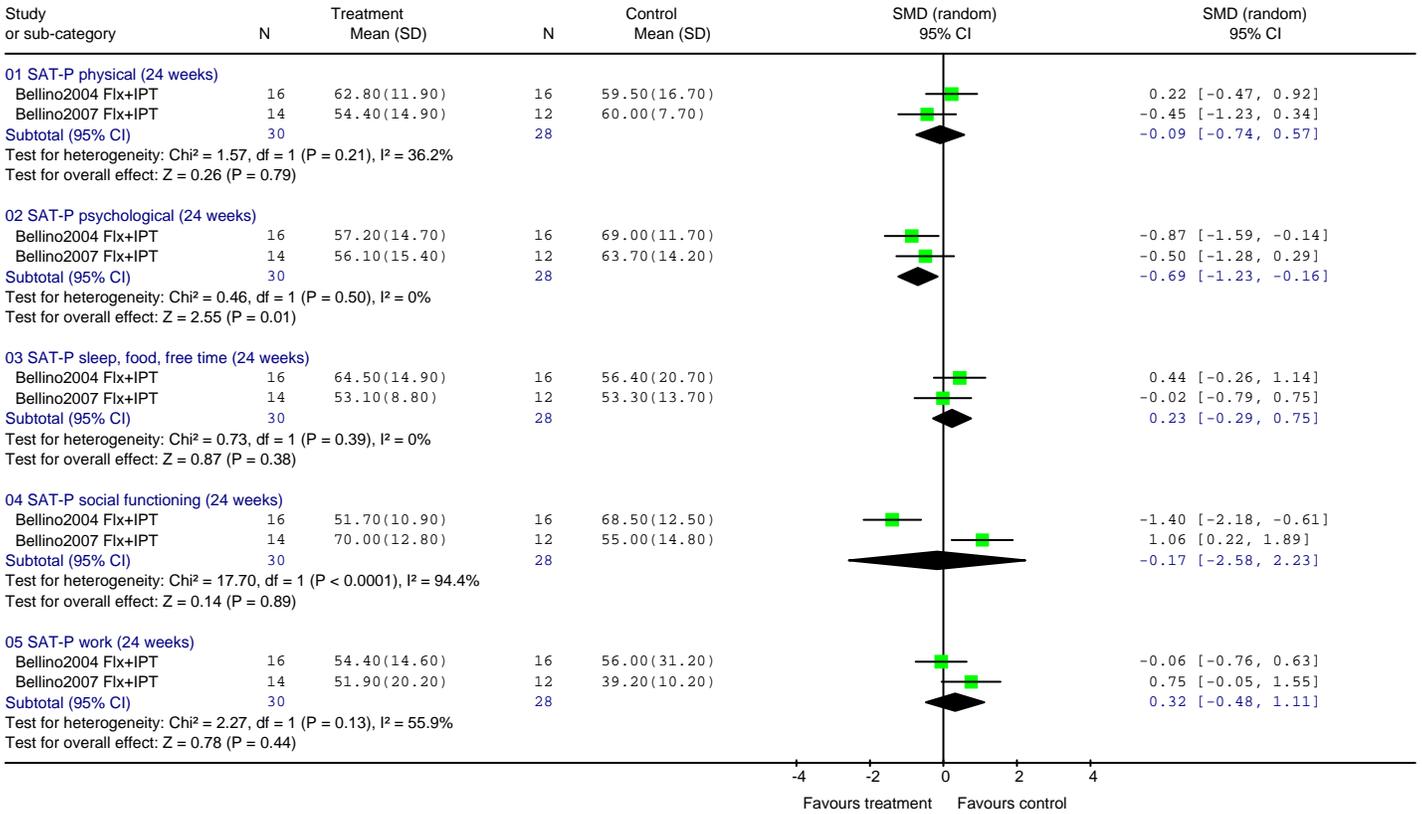

Combo 05.01 global functioning measures

Review: BPD combination pharmacology-psychology
 Comparison: 05 Global functioning measures
 Outcome: 01 GAS/GAF

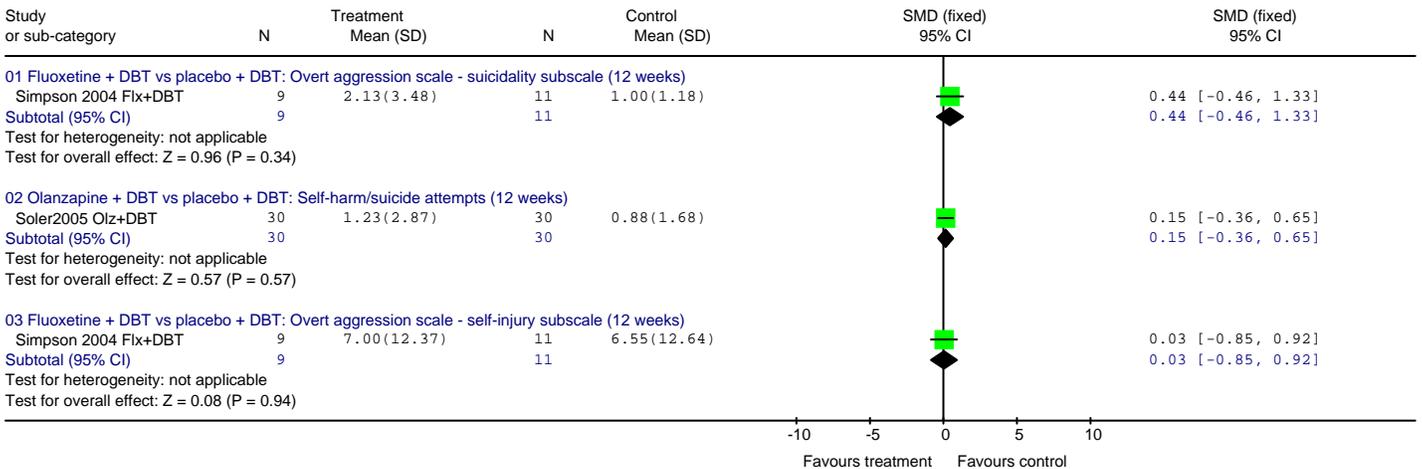

Combo 06.01 quality of life measures

Review: BPD combination pharmacology-psychology
 Comparison: 06 Quality of life measures
 Outcome: 01 Fluoxetine + IPT vs fluoxetine or fluoxetine + CT

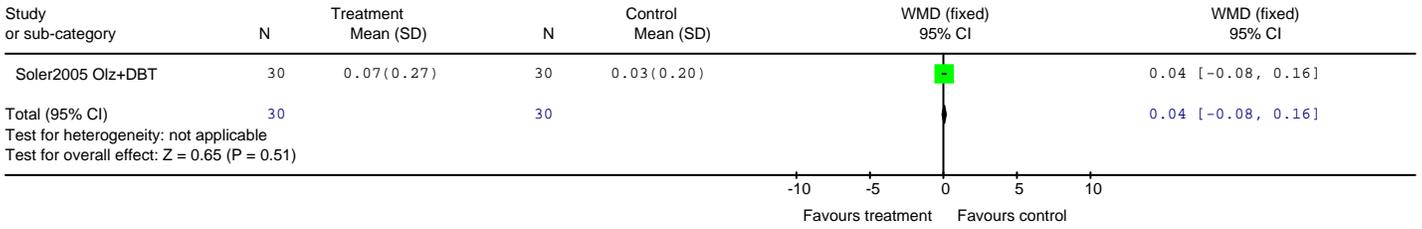

Combo 07.01 self-harm/suicidality

Review: BPD combination pharmacology-psychology
 Comparison: 07 Self-harm/suicidality
 Outcome: 01 Self-harm/suicidality continuous measures

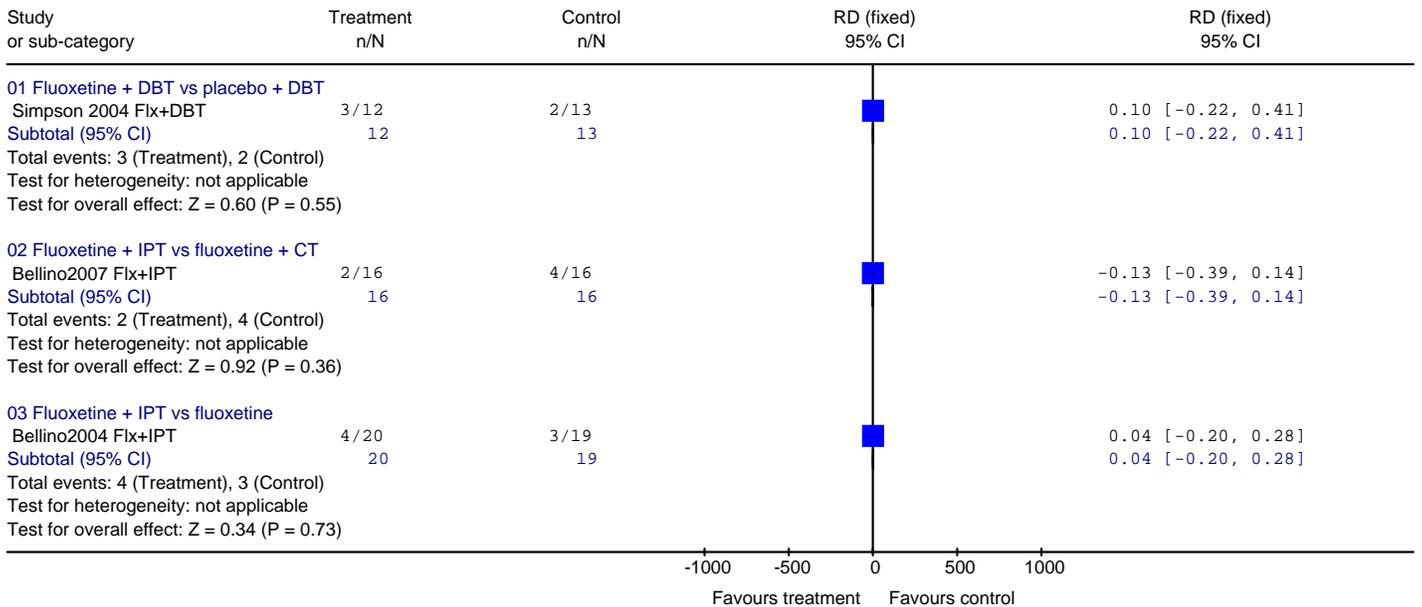

Combo 08.01 service use measures

Review: BPD combination pharmacology-psychology
 Comparison: 08 Service use
 Outcome: 01 Olanzapine + DBT vs placebo + DBT: Number of visits to emergency psychiatric services (12 weeks)

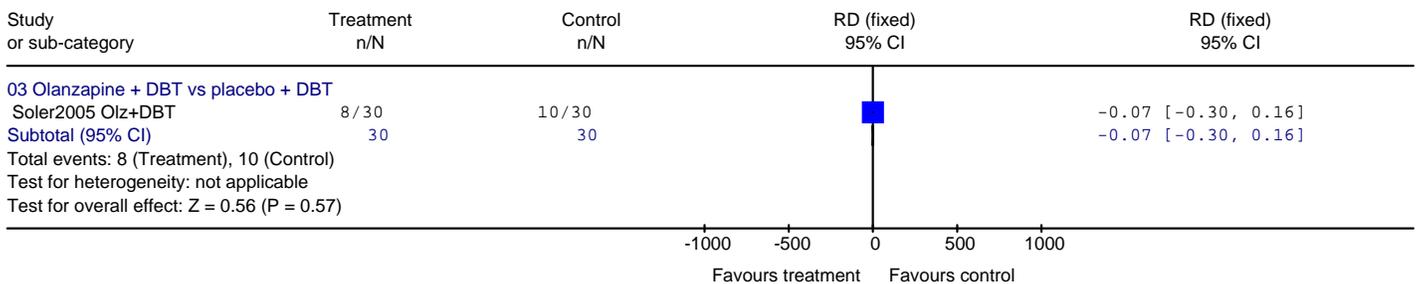

Combo 09.01 antidepressants: leaving treatment early for any reason

Review: BPD combination pharmacology-psychology
 Comparison: 09 Leaving treatment early for any reason
 Outcome: 01 Antidepressants (non-placebo comparisons)

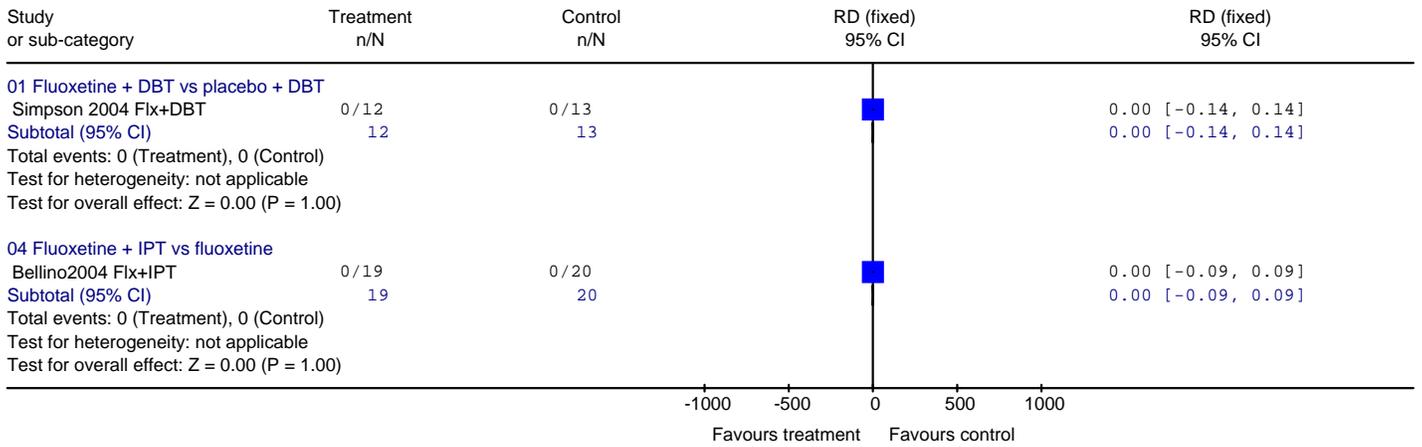

Combo 09.02 antipsychotics: leaving treatment early for any reason

Review: BPD combination pharmacology-psychology
 Comparison: 09 Leaving treatment early for any reason
 Outcome: 02 Antipsychotics (non-placebo comparisons)

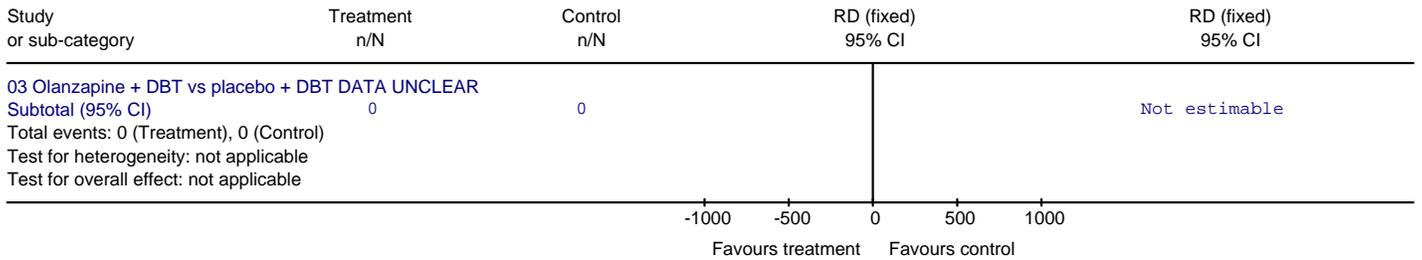

Combo 10.01 antidepressants: leaving treatment early due to side-effects

Review: BPD combination pharmacology-psychology
 Comparison: 10 Leaving treatment early due to side-effects
 Outcome: 01 Antidepressants (non-placebo comparisons)

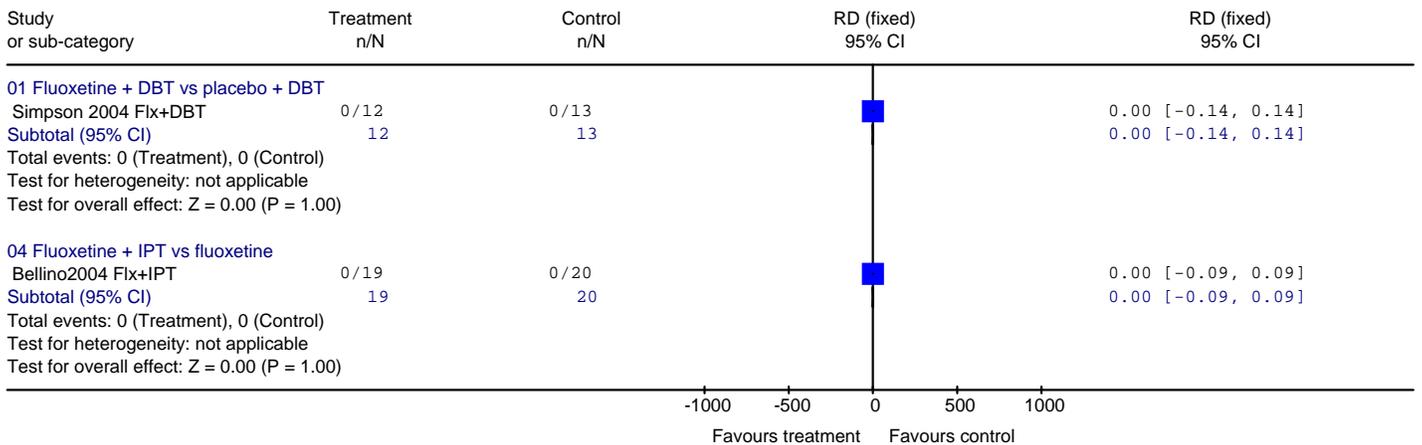

Combo 10.02 antipsychotics: leaving treatment early due to side-effects

Review: BPD combination pharmacology-psychology
 Comparison: 10 Leaving treatment early due to side-effects
 Outcome: 02 Antipsychotics (non-placebo comparisons)

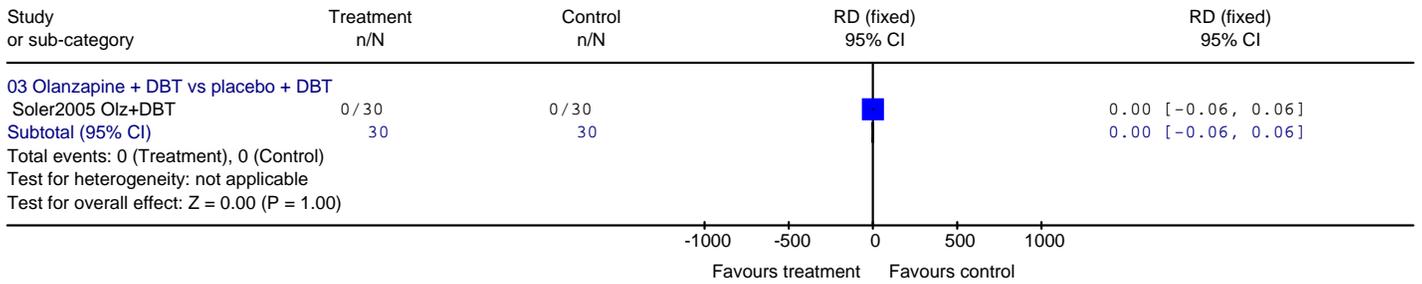

Combo 11.01 antidepressants: number of participants reporting side-effects

Review: BPD combination pharmacology-psychology
 Comparison: 11 Number of participants reporting side effects
 Outcome: 01 Antidepressants (non-placebo comparisons)

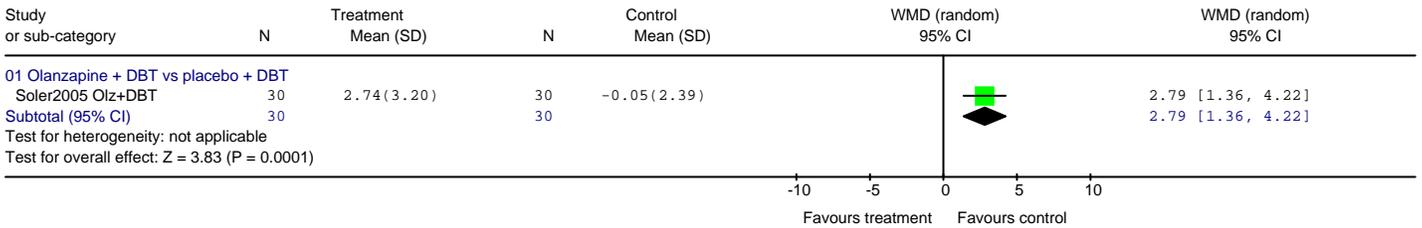

Combo 11.02 antipsychotics: number of participants reporting side-effects

Review: BPD combination pharmacology-psychology
 Comparison: 11 Number of participants reporting side effects
 Outcome: 02 Antipsychotics (non-placebo comparisons)

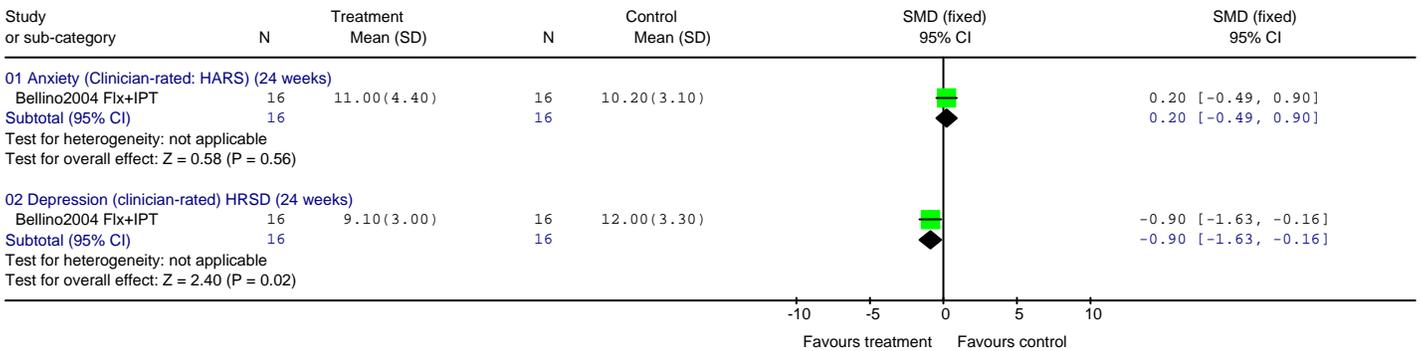

Combo 12.01 antipsychotics: weight change

Review: BPD combination pharmacology-psychology
 Comparison: 12 Side effects: weight or weight change (kg)
 Outcome: 01 Antipsychotics

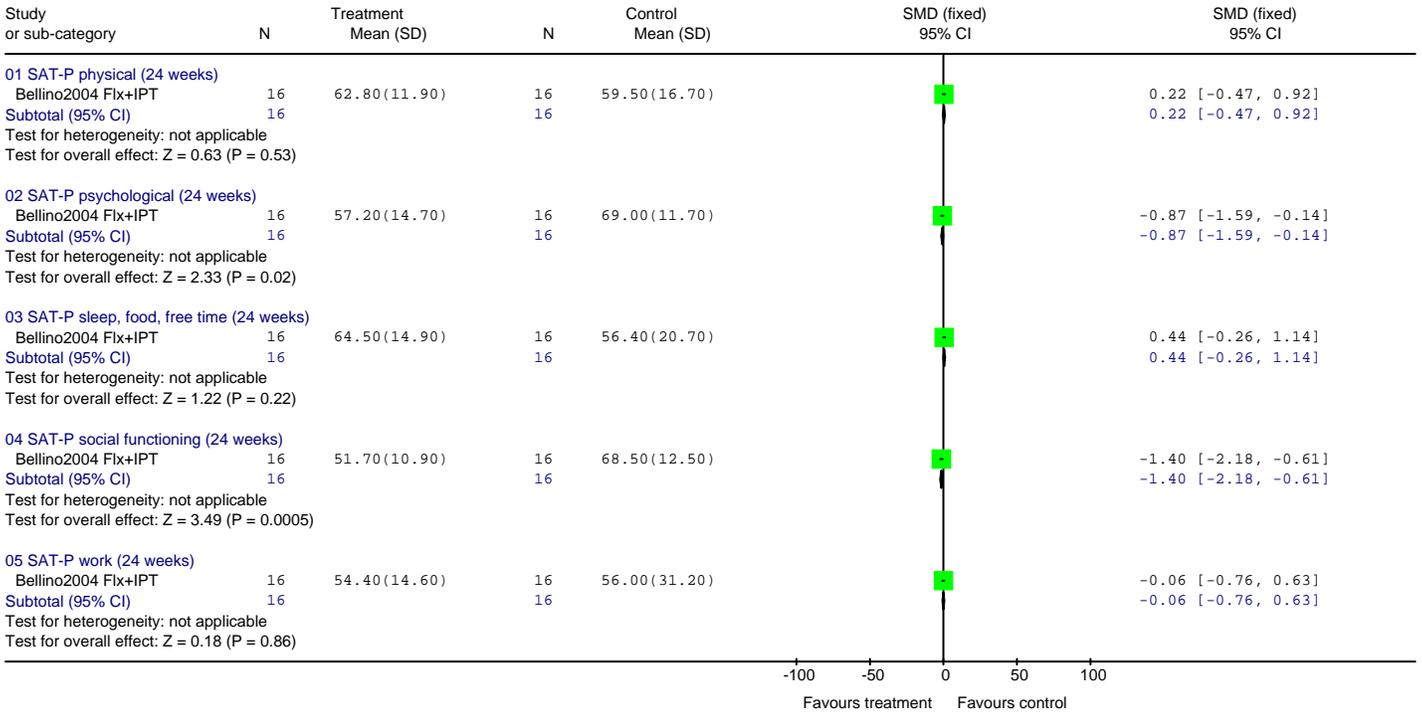

Combo 13.01 fluoxetine + IPT versus fluoxetine: efficacy measures

Review: BPD combination pharmacology-psychology
 Comparison: 13 Fluoxetine + IPT versus fluoxetine
 Outcome: 01 Efficacy measures

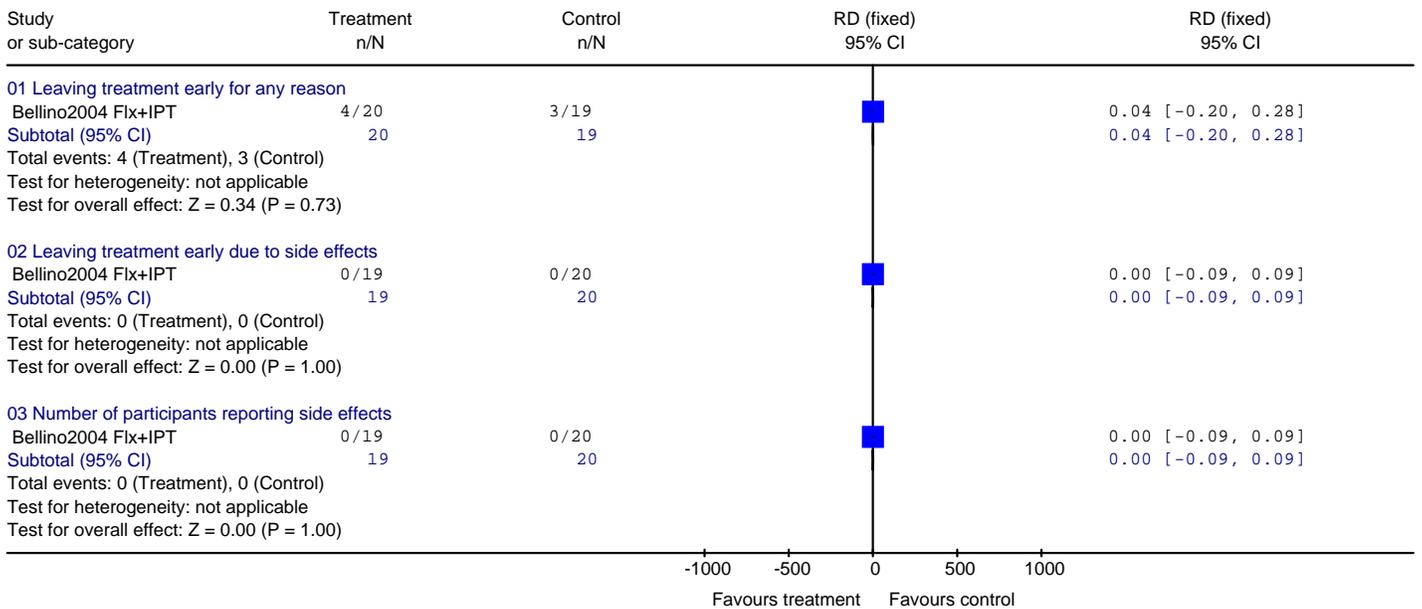

Combo 13.02 fluoxetine + IPT versus fluoxetine: quality of life measures

Review: BPD combination pharmacology-psychology
 Comparison: 13 Fluoxetine + IPT versus fluoxetine
 Outcome: 02 QOL: Fluoxetine vs fluoxetine + IPT

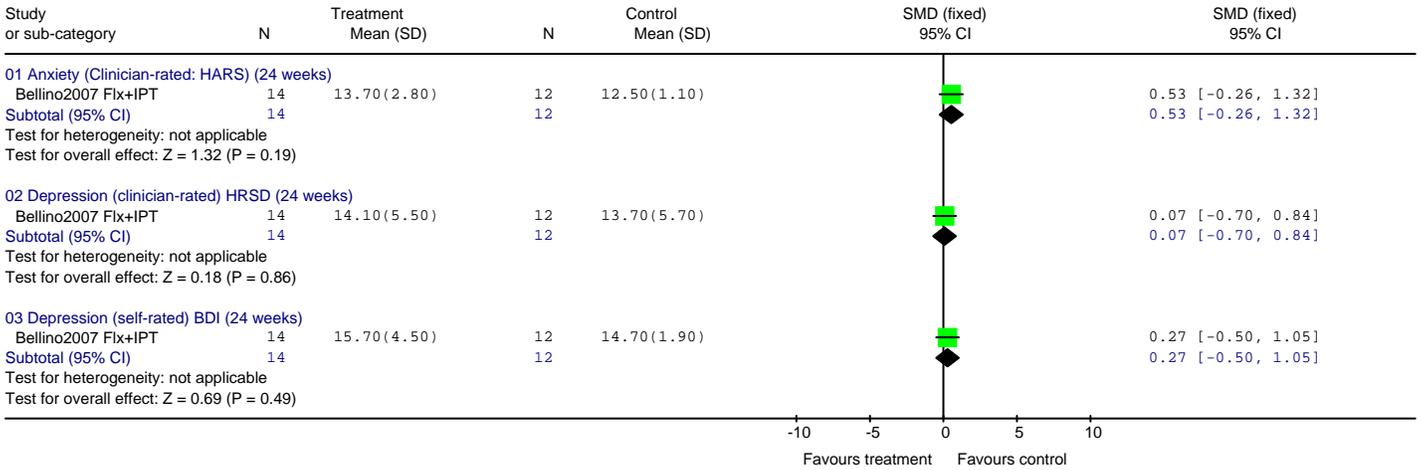

Combo 13.03 fluoxetine + IPT versus fluoxetine: acceptability and tolerability measures

Review: BPD combination pharmacology-psychology
 Comparison: 13 Fluoxetine + IPT versus fluoxetine
 Outcome: 03 Tolerability and acceptability data

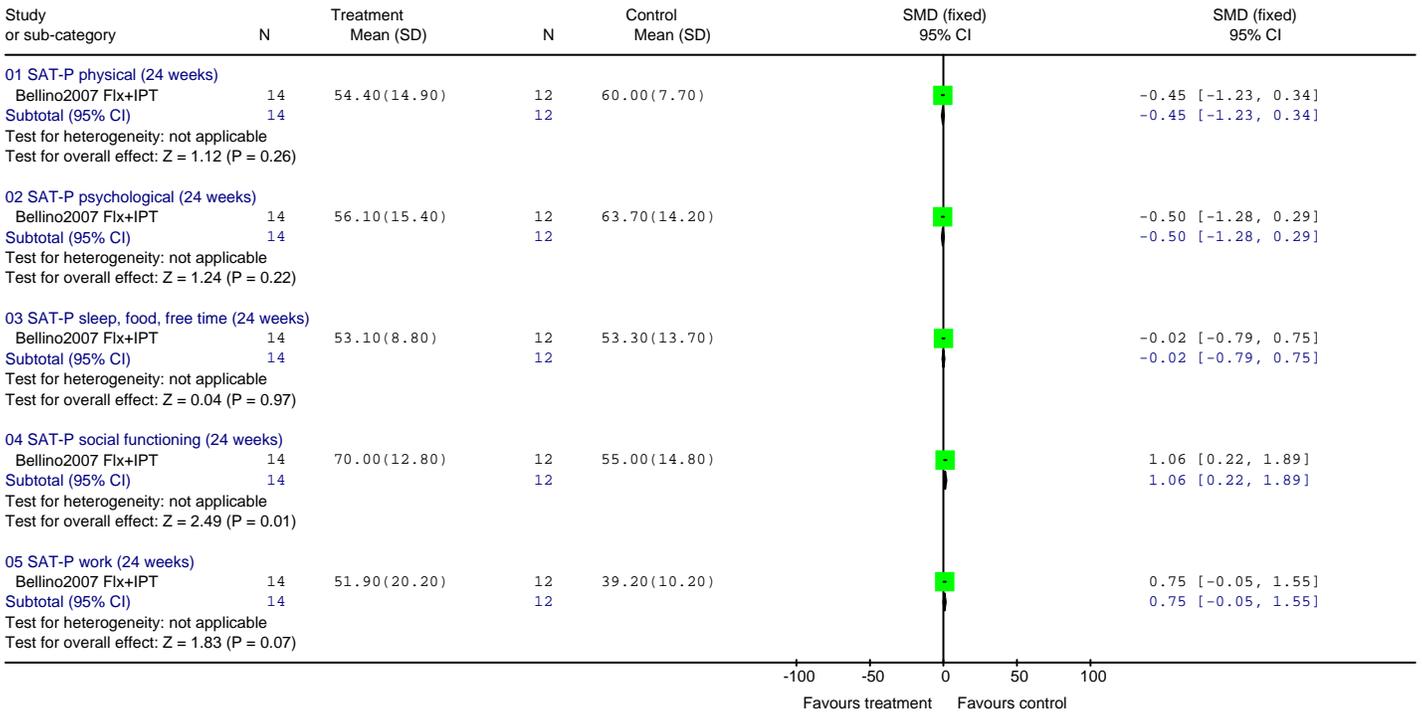

Combo 14.01 fluoxetine + IPT versus fluoxetine + CT: efficacy measures

Review: BPD combination pharmacology-psychology
 Comparison: 14 Fluoxetine + IPT versus fluoxetine + CT
 Outcome: 01 Efficacy measures

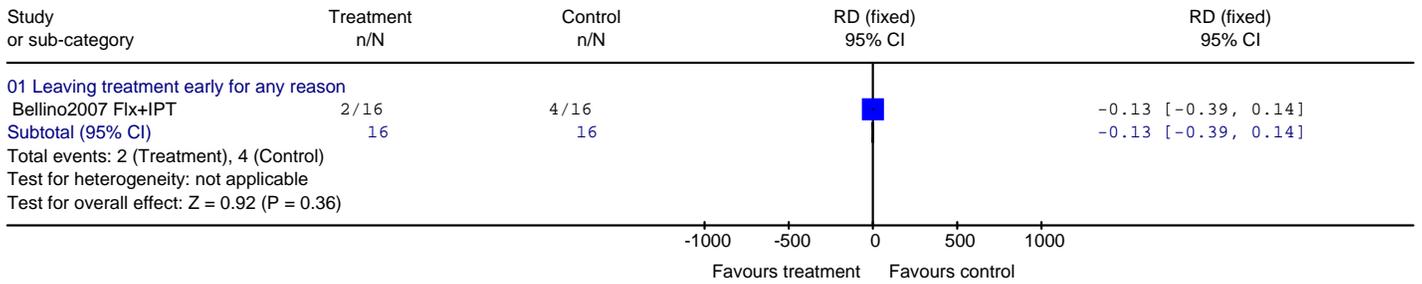

Combo 14.02 fluoxetine + IPT versus fluoxetine + CT: quality of life measures

Review: BPD combination pharmacology-psychology
 Comparison: 14 Fluoxetine + IPT versus fluoxetine + CT
 Outcome: 02 QOL: Fluoxetine vs fluoxetine + IPT + CT

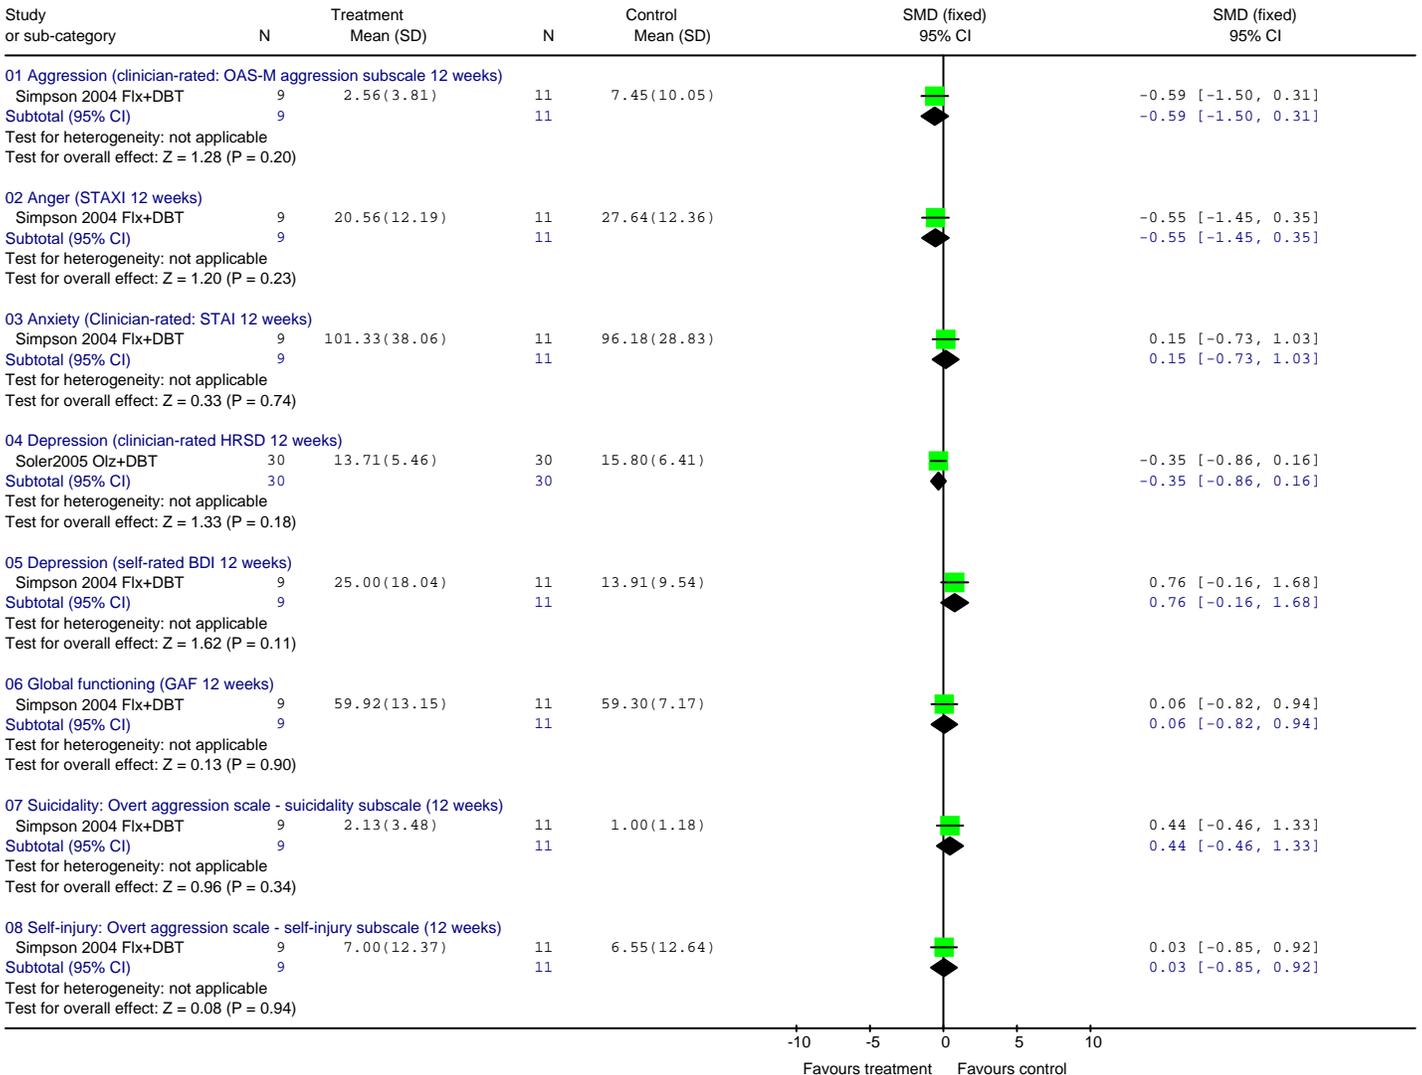

Combo 14.03 fluoxetine + IPT versus fluoxetine + CT: acceptability and tolerability

Review: BPD combination pharmacology-psychology
 Comparison: 14 Fluoxetine + IPT versus fluoxetine + CT
 Outcome: 03 Tolerability and acceptability data

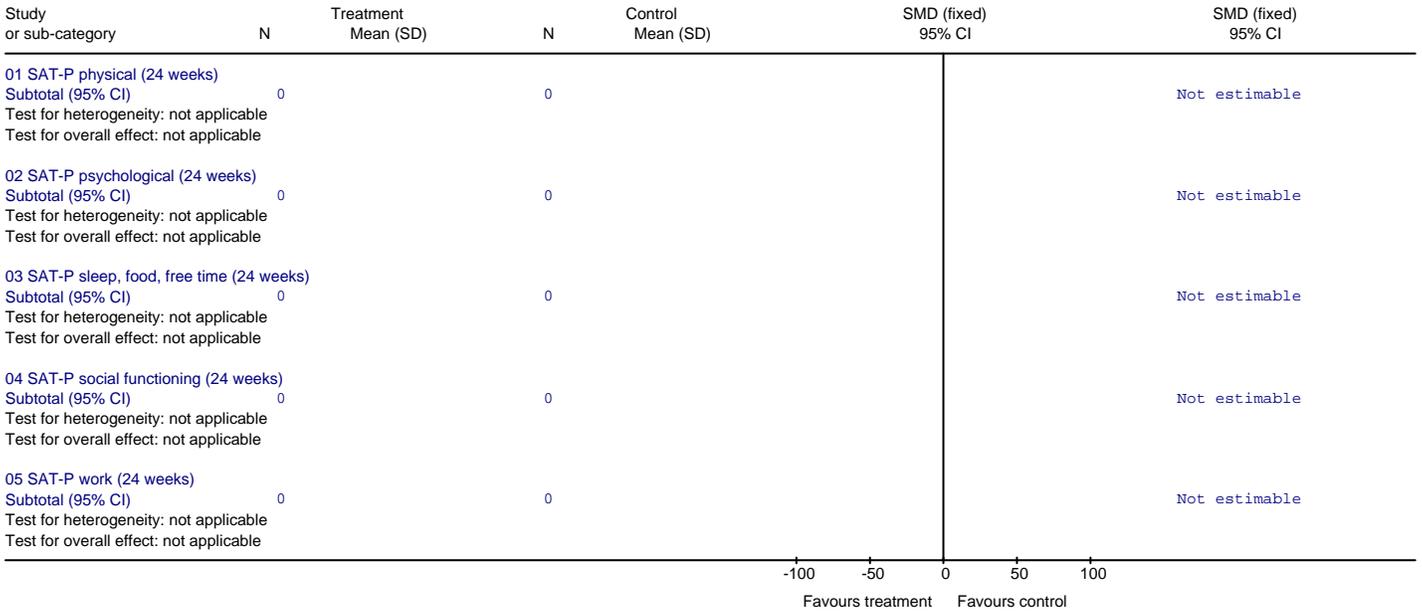

Combo 15.01 fluoxetine + DBT versus placebo: efficacy measures

Review: BPD combination pharmacology-psychology
 Comparison: 15 Fluoxetine + DBT versus placebo
 Outcome: 01 Efficacy measures

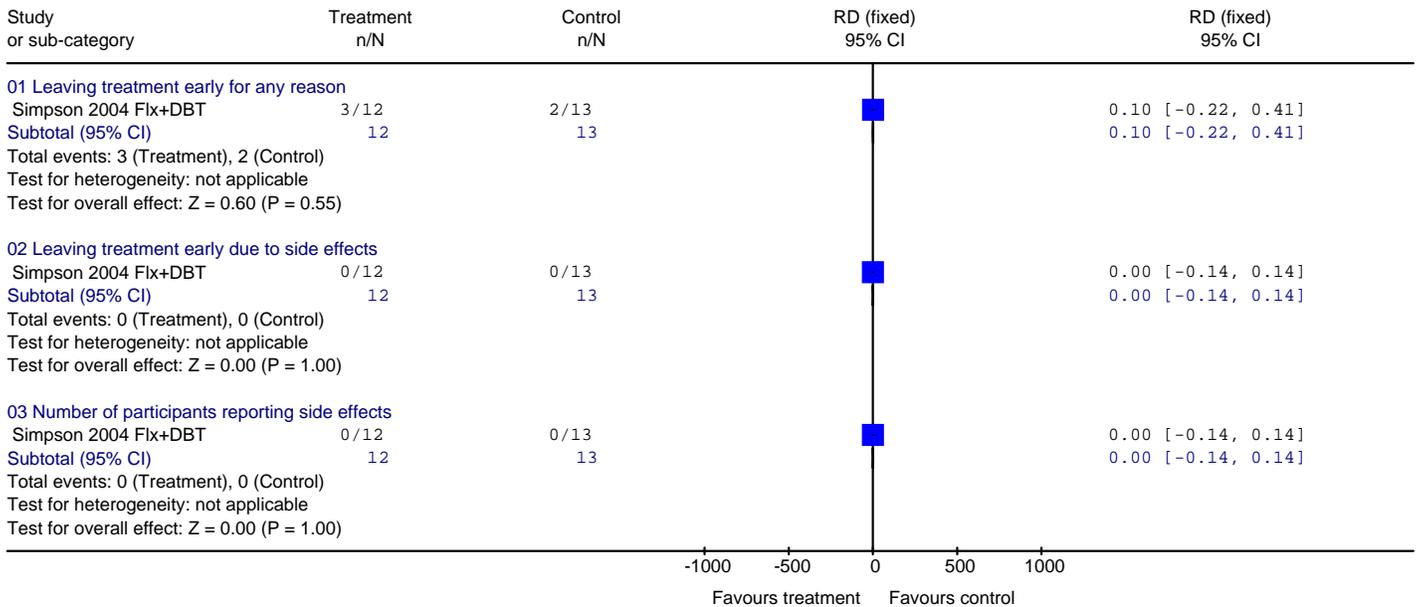

Combo 15.02 fluoxetine + DBT versus placebo: quality of life measures

Review: BPD combination pharmacology-psychology
 Comparison: 15 Fluoxetine + DBT versus placebo
 Outcome: 02 QOL: Fluoxetine vs fluoxetine + IPT

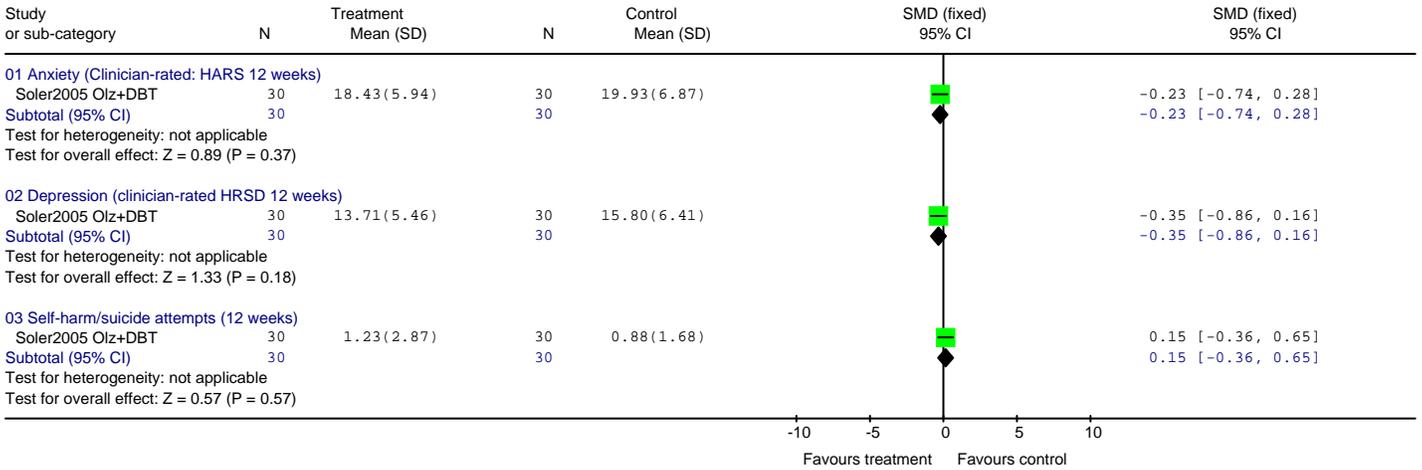

Combo 15.03 fluoxetine + DBT versus placebo: acceptability and tolerability

Review: BPD combination pharmacology-psychology
 Comparison: 15 Fluoxetine + DBT versus placebo
 Outcome: 03 Tolerability and acceptability data

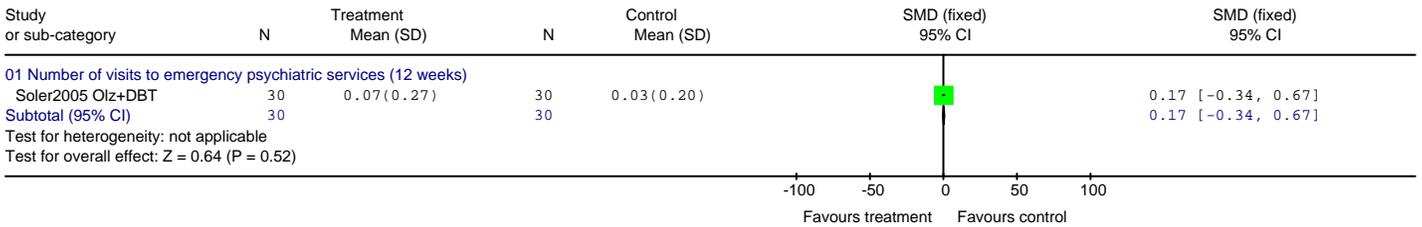

Combo 16.01 olanzapine + DBT versus placebo: efficacy measures

Review: BPD combination pharmacology-psychology
 Comparison: 16 Olanzapine + DBT versus placebo
 Outcome: 01 Efficacy measures

Combo 16.02 olanzapine + DBT versus placebo: service use measures

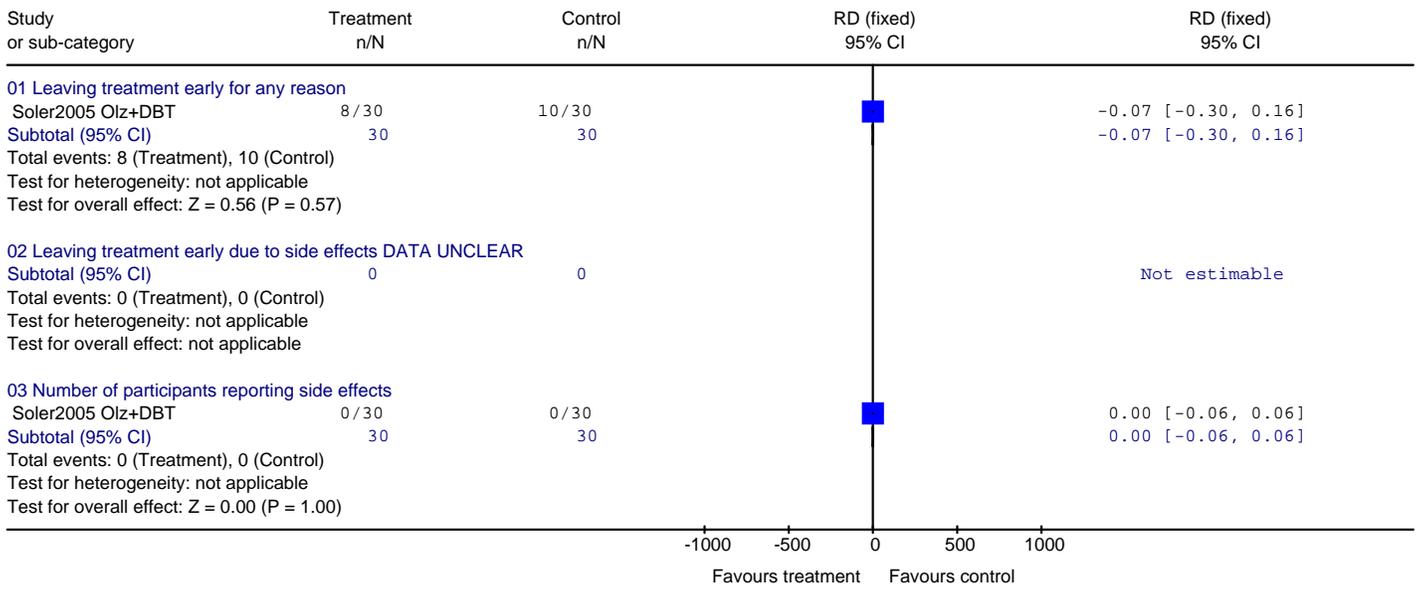

Review: BPD combination pharmacology-psychology
 Comparison: 16 Olanzapine + DBT versus placebo
 Outcome: 02 Service use

Combo 16.03 olanzapine + DBT versus placebo: acceptability and tolerability measures

DRAFT FOR CONSULTATION

Review: BPD combination pharmacology-psychology
 Comparison: 16 Olanzapine + DBT versus placebo
 Outcome: 03 Tolerability and acceptability data

Combo 16.04 olanzapine + DBT versus placebo: side-effects

Review: BPD combination pharmacology-psychology
 Comparison: 16 Olanzapine + DBT versus placebo
 Outcome: 04 Side-effects
