1. Welcome and objectives for the meeting

The Chair welcomed the Committee members and attendees to the fourth meeting on the developmental follow-up of preterm babies. The Committee members and attendees introduced themselves.

The Chair informed the Committee that apologies had been received. These are noted above.

The Chair outlined the objectives of the meeting, which included: drafting protocols and reviewing the evidence for the guideline.

2. Confirmation of matter under discussion, and declarations of interest

The Chair confirmed that, for the purpose of managing conflicts of interest, the matter under discussion was the developmental follow-up of preterm babies.

The Chair asked everyone to verbally declare any interests that have arisen other than those already submitted.

Name	Job title, organisation	Declarations of Interest, date declared	Type of interest	Decision taken
Samantha Johnson	Developmental Psychologist and Senior Research Fellow, Leicester University	Invited to join a Topic Expert Group to advise on developmental follow-up and continuing care for the European Foundation of Newborn Infants (EFCNI) project to develop European Standards of Care for Newborn Health. Anticipated launch of the standards is September 2017.	Personal non-financial specific	No further action necessary.
Samantha	Developmental Psychologist	Paper accepted for publication that	Personal non-financial	No further action

Johnson	and Senior Research Fellow, Leicester University	relates to the subject of the guideline: Parekh S, Boyle EM, Guy A, Blaggan S, Manktelow B, Wolke D & Johnson S. Correcting for prematurity affects developmental test scores in infants born late and moderately preterm. Early Human Development (In press).	specific	necessary
Samantha Johnson	Developmental Psychologist and Senior Research Fellow, Leicester University	Paper published that relates to the subject of the guideline: Linsell L, Malouf F, Johnson S, Morris J, Kurinczuk JJ, Marlow N. Prognostic factors for behavioral problems and psychiatric disorders in children born very preterm/very low birth weight: a systematic review. Journal of Developmental and Behavioral Pediatrics 2016;37(1):88-102.	Personal non-financial specific	No further action necessary
