NICE is committed to promoting equality and eliminating unlawful discrimination. Please let us know if we have missed any important organisations from the lists contained within the matrix and which organisations we should include who have a particular focus on relevant equality issues.

### Definitions:

National Institute for Health and Clinical Excellence

Provisional matrix of consultees and commentators for the appraisal of bevacizumab, sarofenib, sunitinib and temsirolimus for renal cell carcinoma

Issue date: September 2007

### Consultees

Organisations that accept an invitation to participate in the appraisal; the manufacturer(s) or sponsor(s) of the technology; national professional organisations; national patient organisations; the Department of Health and the Welsh Assembly Government and relevant NHS organisations in England.

Consultees can participate in the consultation on the draft scope, the Assessment Report and the Appraisal Consultation Document, they are invited to prepare a submission dossier and all non-manufacturers/sponsors consultee organisations can nominate clinical specialists and patient experts to present their personal views to the Appraisal Committee. All consultees are given the opportunity to appeal against the Final Appraisal Determination (FAD).

### Commentators

Organisations that engage in the appraisal process but that are not asked to prepare a submission dossier, and that receive the FAD for information only, without right of appeal. These organisations are: manufacturers of comparator technologies; NHS Quality Improvement Scotland; the relevant National Collaborating Centre (a group commissioned by the Institute to develop clinical guidelines); other related research groups where appropriate (for example, the Medical Research Council [MRC], National Cancer Research Institute); other groups (for example, the NHS Confederation, NHS Information Authority and NHS Purchasing and Supplies Agency, and the *British National Formulary*).

All non-manufacturers/sponsors commentator organisations can nominate clinical specialists and patient experts to present their personal views to the Appraisal Committee.

### Assessment team

An independent academic group (commissioned by the NHS Research and Development Health Technology Assessment Programme [HTA Programme] to assist in the appraisal) prepares an Assessment Report on the health technology (a review of the clinical and cost effectiveness of the technology(ies) based on a systematic review of the literature and a review of manufacturer and sponsor submission to the Institute).

## **Manufacturer table**

National Institute for Health and Clinical Excellence

Provisional matrix of consultees and commentators for the appraisal of bevacizumab, sarofenib, sunitinib and temsirolimus for renal cell carcinoma

Issue date: September 2007

## Appendix B

The matrix lists the manufacturers who have been invited to participate in a technology appraisal. As an appraisal progresses the matrix may not necessarily list all the relevant products relating to it (as manufacturers may decide that they do not wish to be involved). This table has been produced to capture all the related products for easy identification of interests for anyone involved in the appraisal.

<b>Consultees</b>	
<b>Manufacturer</b>	<b>Generic Name</b>
Bayer plc	sorafenib
Pfizer Ltd	sunitinib
Roche Products Limited	bevacizumab
Wyeth Pharmaceuticals	(temsirolimus)
<b>Commentators</b>	
<b>Manufacturer</b>	<b>Generic Name</b>
Chiron Corporation Ltd	interleukin-2
Roche Products Ltd	Interferon alpha
