Dear Consultee and Commentator,

**Health Technology Appraisal
Growth failure (in children) - human growth hormone (HGH) (review)**

Please be advised that the Institute and the Department of Health have completed discussions on the scope of the review of the above technology appraisal as informed previously and will be resuming the schedule for this appraisal.

We need to re-consult on the draft scope and anticipate this to begin the week commencing Monday 31st March. Please also be advised that the Institute will be holding a post referral scoping workshop to discuss the issues brought up during consultation. This workshop is scheduled to take place on June 13th; you will be formally invited in due course.

If you have any questions or queries please contact the Project Manager for this appraisal, Natalie Bemrose (natalie.bemrose@nice.org.uk; 020 7045 2245).

On behalf of

Dr Carole Longson
Director, Centre for Health Technology Evaluation
