

Rivaroxaban for the treatment of deep vein thrombosis and prevention of recurrent deep vein thrombosis and pulmonary embolism

Nurses caring for people with this condition were invited to submit professional statement to inform this technology appraisal. There is no information to submit at this stage on behalf of the Royal College of Nursing (RCN) other than what is obtainable through systematic reviews.

Thank you for the invitation. The RCN will participate during the next stage of this appraisal.

Please acknowledge receipt.

Regards

Royal College of Nursing
