Dear Sir or Madam

Health Technology Appraisal

**Review of NICE Technology Appraisal Guidance No.47, glycoprotein IIb/IIIa inhibitors in
the treatment of acute coronary syndromes**

Further to our letter of 18 July, we would like to update you on the decision made regarding the review of the existing guidance on glycoprotein IIb/IIIa inhibitors. The Institute was proposing that the decision to review the guidance be deferred until July 2007, which coincides with the review date set for the guidance on clopidogrel for acute coronary syndromes (no.80).

During consultation, all of the comments received by the Institute agreed with the proposal put forward, and therefore, the Institute's Guidance Executive has decided to proceed with the proposal. We will contact you again in mid 2007, with proposals for how we might proceed with the review of the guidance. Information on this approach will be published on the Institute's website (www.nice.org.uk) on 29 September 2005.

Yours faithfully

Dr Carole Longson
Director, Centre for Health Technology Evaluation

National Institute for Health and Clinical Excellence

Letter notifying decision on review proposal for NICE Technology Appraisal Guidance No.47, glycoprotein IIb/IIIa inhibitors in the treatment of acute coronary syndromes

Issue Date: September 2005
