Equality impact assessment – Guidance development

STA Pembrolizumab with carboplatin and paclitaxel or nab- paclitaxel for untreated metastatic squamous non-small- cell lung cancer [ID1306]

The impact on equality has been assessed during this appraisal according to the principles of the NICE equality scheme.

Final appraisal determination

(when no ACD was issued)

- | |
|---|
| 1. Have the potential equality issues identified during the scoping process been addressed by the committee, and, if so, how? |
|---|

No potential equality issues have been identified during the scoping process.

- | |
|--|
| 2. Have any other potential equality issues been raised in the submissions, expert statements or academic report, and, if so, how has the committee addressed these? |
|--|

No potential equality issues have been identified during submissions, expert statements or academic report.

- | |
|--|
| 3. Have any other potential equality issues been identified by the committee, and, if so, how has the committee addressed these? |
|--|

No other potential equality issues have been identified by the committee.

4. Do the recommendations make it more difficult in practice for a specific group to access the technology compared with other groups? If so, what are the barriers to, or difficulties with, access for the specific group?
Not applicable

5. Is there potential for the recommendations to have an adverse impact on people with disabilities because of something that is a consequence of the disability?
Not applicable

6. Are there any recommendations or explanations that the committee could make to remove or alleviate barriers to, or difficulties with, access identified in questions 4 or 5, or otherwise fulfil NICE's obligations to promote equality?
Not applicable

7. Have the committee's considerations of equality issues been described in the final appraisal determination, and, if so, where?
Not applicable
